

2012 Unique Communication Solution's Education and Training Seminar

April 9—14, 2012

The Unique Communication Solution's family would like to invite you to attend the 2012 Education and Training Seminar.

We are pleased to hold our seminar at the beautiful Green Valley Ranch Resort and Spa located in Henderson, Nevada.

This year's conference will focus exclusively on cairs.net. 2012's hands-on training classes are designed to help you transfer knowledge from the classroom to your daily job. We have made a few changes in our curriculum line-up to make sure training translates into on-the-job skills. First, we have changed our training philosophy by structuring our courses to center around user roles. Prior to the conference we will provide you with a list of role based courses so you can build a training experience that matches what you do in cairs.net.

Our first role-based course will be on Accounting. We will go through every step in the process to create a bill.

Our second role-based course will be for all you administrators out there! We will cover the ins and outs of System Admin, everything from profiles to number plans. This specialized intense course will be offered to only 10 people at an additional cost of \$1500.00. The students signed up for this course will be required to attend all classes to receive the certificate.

For our users, we will provide several roles and a road map of the most important courses to take. As always, you are free to choose what classes you want to join (with the exception of the specialized Administrator course).
